COURSE INFORMATION

A common citizen computes tax proportionate to his/ her income, but in a rather different concept of Advanced Tax, the government already predicts the income of certain professionals etc. and ask them to pay an advanced proportional tax to such assumed income. That is to say, the companies or organizations undergoing such taxation system may either be in profit or loss or no profit no loss. Learning the key to such Taxes, paves an unbridled way for a law student and provides multiple career aspects.

We at The LAW Learners present this course with an idea to understand this shallow discovered area with more inputs and come up with practical applications, benefits and potential criticisms for using this method of Taxation on a large scale, thereby paving huge insights to companies whatsoever.

The Course shall help you understand,

- Concept of Advance Income Tax
- Provisions of the Amendment
- Need of the law and effective implementation

ASSESSMENT

The Assessment of course takers shall be based a Short Assignment consisting of Analytical Questions. There shall be a total of 5 Analytical Questions of 10 Marks each, which the course takers would have to submit on the conclusion of the course. This ensures that the participants have learnt a substantial part of the course content.

Passing Marks - 25
